Letter for roommates and close contacts of someone with the Corona virus

Dear Sir / Madam,

You've been in contact with someone who has tested positive. This puts you at risk of possible contamination.

You can get symptoms such as:

- cold complaints (cold, runny nose, sneezing, sore throat)
- cough
- sudden loss of smell and/or taste
- difficulty breathing
- elevation or fever

Do you have complaints or do you receive complaints?

Stay at home and call **0800-0800** for an appointment. Do not meet other people. You must stay home until your test result is known. This applies if you have been vaccinated and if you have not been vaccinated.

Generally applicable measures

Keep distance

- Stay away from crowded places.
- Stay 1.5 meters away from other people.
- Work from home as much as possible.

Cough and sneeze in your elbow and wash your hands

- Wash your hands regularly with soap and water. Always do this:
 - After coughing and sneezing
 - After you have been to the toilet
 - After cleaning and tidying up
 - Before cooking and eating.

- Use a tissue paper when coughing.
- Do not have a tissue paper at hand? Then cough in your elbow.
- Only use a tissue paper once and throw it in the waste bin.
- Then wash your hands.
